

Activity for pupils: What mattered most to Bilal?

This is a paired discussion activity. Give each pair a copy of the target diagram and the twelve items below. Ask pupils to discuss where each of the possible answers to the question. 'What mattered most to Bilal? Should go on the target. There are no definitive correct answers, and rules can be varied: no more than three in any one circle is a good way to do it. The discussion centres on **interpretation**, a key RE skill, but one that is often lacking.
