

Consultant Mathematics Departments

Five departments have been appointed as Consultant Mathematics Departments for the academic year 2005 - 2006. These departments will pilot material and research and then share their findings with teachers and Heads of Department at the Maintaining a Strategic Overview sessions. In addition, the schools will support visits from teachers wanting to see areas of good practice and share ideas with like-minded colleagues.

The Consultant Mathematics Departments for 2005 - 2006 and their nominated areas of specialism are:
